The Department of Health and the University of KwaZulu-Natal College of Health Sciences share a common vision of developing the province as a centre of excellence in equitable and effective health service delivery, undergraduate and postgraduate education and research. We wish to appoint talented Heads of Departments who, on the academic side, will lead their disciplines and strengthen our focus areas in research and implement innovative and effective methods of teaching and research supervision. On the clinical side, incumbents will manage clinical services in an extended area of the province which promotes the provision of clinical services beyond the major metropolitan centres. Incumbents would be expected to apportion their time and energy appropriately between the major centres in the envisaged teaching/service platform (Durban, Pietermaritzburg, Newcastle, Empangeni and Port Shepstone). Incumbents will also develop research initiatives which focus on the enhancement of service delivery in the context of the burden of disease. Through this, we will increase equality of service delivery, and enhance the development of our decentralised training platform in line with the needs arising from the National Development Plan.

The academic level of the successful incumbent will be determined during the selection process in line with the University Senate-approved criteria for academic promotions which is available on the HR vacancies website - <http://vacancies.ukzn.ac.za/Home.aspx>. Candidates without a PhD appointed at Lecturer level, will be expected to register for and obtain a Doctoral degree within 5 years of the date of assumption of duty.
